

# NEW CES E-COMMERCE AND PATABID ESTIMATING SOFTWARE INTEGRATION

Switch to cloud-based electrical estimating for lasting success. CES and PataBid's collaboration delivers a top platform for electrical contractors, ensuring profitable and predictable projects.

PataBid Quantify is the first and only electrical estimating software on the market to have a full integration with an electrical supply house. This integration makes electrical bidding software accessible to the larger contracting community and promotes smart construction practices. Start saving time and maximizing project profits. Try a Quantify electrical estimating software free trial today.

Available in-store and online. While supplies last.  
Flyers and promos can be withdrawn without further notice.

## QUANTIFY COST REBATE

Purchase Quantify licenses, spend \$30,000 per license with CES, and get a rebate equivalent to the license cost credited to your CES account, applicable for future re-subscriptions and multiple licenses.

## INSTANT PRICING

PataBid integrates CES e-commerce with Quantify software for instant pricing in electrical estimates, making bidding more accurate and efficient.

## BUY NOW BUTTON

PataBid's integration with CES e-commerce enables one-click material orders directly from Quantify. It's the only software where you can bid and order materials in one platform.
